

Lemna Experiments- Data Tables

Experiment 1: Can competition among individuals from the same species affect their growth?

Conditions	Initial number of plants	Final number of plants	Observations and Descriptions
Low Competition (approx. 2 plants)			
Medium Competition (approx. 75 plants)			
High Competition (approx. 150 plants)			

Lemna Experiments- Data Tables

Experiment 2: Do different types of salt affect the environment?

Conditions	Initial number of plants	Final number of plants	Observations and Descriptions
Positive Control (No added salts)			
Negative Control (mixed road salts)			
20 ml NaCl Solution			
20 ml KCl Solution			
20 ml CaCl₂ Solution
